## Datasheet WorldPay & Autopart

# Take, make & manage payments seamlessly with Worldpay

## worldpay from FIS

Verifone

By joining forces with a trusted payments partner, Worldpay from FIS and integrating your point of sale process from within your Autopart system, we can provide payment processing solutions suited to your business needs with card machines supporting the latest chip and PIN card technology, contactless cards and digital wallets. Worldpay from FIS offers competitive pricing, and simple set up and integration – it's quick and easy to get started taking payments with Worldpay from FIS.

### Key features/benefits

#### Make payments easy

Worldpay from FIS provides your business with simple payment solutions with more ways to pay, offering competitive rates and flexible settlement options.

#### **Smoother, faster Payments**

Faster payments, fewer mistakes. The amount is automatically pushed from your Autopart system to your card machine, removing the need to enter payments twice and reducing the risk of human keying errors.

#### Protect your profits

Fewer miskeying mistakes means our integrated customers can protect their profits by reducing written-off revenue figures.

#### Streamline business efficiencies

Simplify your payments admin using business tools and reporting from Worldpay from FIS, and reduce the time it takes to cash up with takings that automatically add up at the end of the day.

#### Security and trust

As a partner to over 1 million merchants globally and processing 40 billion transactions annually, Worldpay from FIS have the experience and technology to safeguard data and reduce fraud liability.

#### Round-the-clock assistance

Worldpay from FIS's 24/7 customer support team can guide you through any payment challenges and help you get back to business quickly.
